Brett,

Late yesterday, the FBI contacted me and requested that we transfer several (b) (7)(A), (b) (7)(E) to them that were associated with their August 23, 2017 letter. This hardware was given to them and attached is the signed property receipt that includes the associated letter from the FBI. I have highlighted the area in the FBI letter that is addressed with this property transfer.

Also, we plan to transfer additional hardware to the FBI next week.

Please let me know if you have any questions or concerns.

Thanks.

Hello, Seth. A follow up on the first point below: I'll have a colleague in Washington on Tuesday and Wednesday and, in order to facilitate our review and production of emails and documents to third parties, I'd like for my colleague to be able to pick up and transport back to Arizona a hard drive with all the email and Google drive data on it. Would it be possible for IT to have that ready by Tuesday or Wednesday morning? (I left you a VM about this yesterday, but wanted to follow up by email in case you're not checking VMs over the weekend.) Thanks again for your assistance. -Kory

Great; thank you. Three things:

1. I would be inclined to save all the email and Google Drive data to an external hard drive and then have it FedEx'ed to me, if that works on your end. But no need to resolve that today.
2. Is it possible for IT to give us a list of which users' phones and laptops are still available to be reviewed/searched? Basically, which users' phones and/or laptops have been recovered from the user but not erased?
3. What happened to the hard drives and phones that have been erased? Are the hard drives or

memories still physically available for a forensic review, if necessary?

Sorry for all these questions, but I'd just like to make sure we're taking all the steps possible to preserve data.

Thank you (b) (6), (b) (7) (C) ,

The two letters we have are classified (One Secret and one TS/SCI) and we will need to discuss them in a TS/SCI environment. We have TS/SCI Voice, Video and Data capability and can do a VTC or conference call from our HQ SCIF preferably early next week.

I have copied Dustin Williams, Director of Operations here at GSA. He oversees our SCIFs and Comms systems. Please let him/us know who your Comms POC is so his team can coordinate the connection and then block time for the call.

I have also added our Senior GC and CIO POCs.

Lenny,

I am writing to follow up on a conversation last week between one of your attorneys, Seth Greenfeld, and Pete Strzok of the FBI's Counterintelligence Division. As Pete indicated, the FBI requests that the GSA preserve all stored communications, records, and electronic media associated with (b) (7)(A). It is our understanding that the GSA may have a cellular telephone, laptop, call logs, and email communications used by or associated with (b) (7)(A), and we ask that you preserve these devices and this information until further notice. We will follow up through your office with any specific requests for production as needed.

b7A

In addition, with respect to the other materials that we understand remain in the GSA's possession, such as devices and information associated with other members of the presidential transition team, the FBI requests that the GSA confer with the Senate Select Committee on Intelligence (SSCI) and the House Permanent Select Committee on Intelligence (HPSCI) before disposing of those materials.

Thank you for bringing this to our attention and working with us to preserve this material. Please call me if you have any questions.

Great; thank you. Three things:

1. I would be inclined to save all the email and Google Drive data to an external hard drive and then have it FedEx'ed to me, if that works on your end. But no need to resolve that today.
2. Is it possible for IT to give us a list of which users' phones and laptops are still available to be reviewed/searched? Basically, which users' phones and/or laptops have been recovered from the user but not erased?
3. What happened to the hard drives and phones that have been erased? Are the hard drives or memories still physically available for a forensic review, if necessary?

Sorry for all these questions, but I'd just like to make sure we're taking all the steps possible to preserve data.

Hello, Seth. A follow up on the first point below: I'll have a colleague in Washington on Tuesday and Wednesday and, in order to facilitate our review and production of emails and documents to third parties, I'd like for my colleague to be able to pick up and transport back to Arizona a hard drive with all the email and Google drive data on it. Would it be possible for IT to have that ready by Tuesday or Wednesday morning? (I left you a VM about this yesterday, but wanted to follow up by email in case you're not checking VMs over the weekend.) Thanks again for your assistance. -Kory

Great; thank you. Three things:

1. I would be inclined to save all the email and Google Drive data to an external hard drive and then have it FedEx'ed to me, if that works on your end. But no need to resolve that today.
2. Is it possible for IT to give us a list of which users' phones and laptops are still available to be reviewed/searched? Basically, which users' phones and/or laptops have been recovered from the user but not erased?
3. What happened to the hard drives and phones that **have** been erased? Are the hard drives or memories still physically available for a forensic review, if necessary?

Sorry for all these questions, but I'd just like to make sure we're taking all the steps possible to preserve data.

I was told it is about 328 GB. It is too large to transmit so we will have to figure out how to download and get it to you, but that can be addressed when needed. We can put it on something and USPS mail it.

Lenny,

I am writing to follow up on a conversation last week between one of your attorneys, Seth Greenfeld, and Pete Strzok of the FBI's Counterintelligence Division. As Pete indicated, the FBI requests that the GSA preserve all stored communications, records, and electronic media associated with (b) (7)(A). It is our understanding that the GSA may have a cellular telephone, laptop, call logs, and email communications used by or associated with (b) (7)(A), and we ask that you preserve these devices and this information until further notice. We will follow up through your office with any specific requests for production as needed.

b7A

In addition, with respect to the other materials that we understand remain in the GSA's possession, such as devices and information associated with other members of the presidential transition team, the FBI requests that the GSA confer with the Senate Select Committee on Intelligence (SSCI) and the House Permanent Select Committee on Intelligence (HPSCI) before disposing of those materials.

Thank you for bringing this to our attention and working with us to preserve this material. Please call me if you have any questions.

Great; thank you. Three things:

1. I would be inclined to save all the email and Google Drive data to an external hard drive and then have it FedEx'ed to me, if that works on your end. But no need to resolve that today.
2. Is it possible for IT to give us a list of which users' phones and laptops are still available to be reviewed/searched? Basically, which users' phones and/or laptops have been recovered from the user but not erased?
3. What happened to the hard drives and phones that have been erased? Are the hard drives or memories still physically available for a forensic review, if necessary?

Sorry for all these questions, but I'd just like to make sure we're taking all the steps possible to preserve data.

Good morning. Below is another e-mail from Kory. I will need to give him some answer today so please ask the FBI when you speak with them. He knows GSA has everything backed up, and he is just asking for copies; GSA will not release the actual machines or grant access to the actual system so there is no way they or anyone else can tamper with evidence. In addition, these are actually their records so I am having a hard time seeing an argument to withhold copies from them.

Hello, Seth. A follow up on the first point below: I'll have a colleague in Washington on Tuesday and Wednesday and, in order to facilitate our review and production of emails and documents to third parties, I'd like for my colleague to be able to pick up and transport back to Arizona a hard drive with all the email and Google drive data on it. Would it be possible for IT to have that ready by Tuesday or Wednesday morning? (I left you a VM about this yesterday, but wanted to follow up by email in case you're not checking VMs over the weekend.) Thanks again for your assistance. -Kory

I have copied Dustin Williams, Director of Operations here at GSA. He oversees our SCIFs and Comms systems. Please let him/us know who your Comms POC is so his team can coordinate the connection and then block time for the call.

I have also added our Senior GC and CIO POCs.

Thanks again for making time for the call earlier today. As discussed, the attorneys copied on this message represent Trump for America, Inc., the nonprofit entity serving as the corporate form for the 2016 presidential transition team. For your records, I've attached the following:

1. Articles of Incorporation for the legal entity, naming the initial TFA directors
2. Resolution changing the entity's legal name to "Trump for America, Inc."
3. Letter designating the initial TFA directors as the GSA's points of contact for the transition team
4. Resolution replacing the initial TFA directors with interim TFA directors
5. Letter designating the interim TFA directors as the GSA's points of contact for the transition team
6. Resolution replacing the interim TFA directors with the current TFA directors (i.e., Ken Nahigian and Charles Gantt)

These documents establish that the current TFA directors (Ken Nahigian and Charles Gantt) are responsible for the 2016 presidential transition team. He is requesting an electronic copy of the documents from [REDACTED] (b) (7)(E), (b) (7)(A), which, I believe, were made by GSA before the formal requests were made by DOJ/FBI so they are available on a thumb-drive. GSA does not need to access anything at this time to make the copies; it is simply providing a copy of the copy GSA made.

Good afternoon. Kory Langhofer, the attorney for the Presidential Transition Team asking for a copy of the PTT documents, reached out to me again today asking for the copies. He said they are under a document preservation and production request from the Senate Select Committee on Intelligence. They also expect a request from DOJ. As you wrote in an e-mail a week or so ago, I informed him that GSA is under a document preservation request from DOJ/FBI, and we did not mail him the copy of the records. He will be calling you to see about how this should be addressed for them with the Senate Committee and possibly getting a copy of the records as they think there may be some privileges (e.g., attorney-client or Executive Privilege (which I personally have a hard time seeing as it is pre-inauguration)).

I am very sorry, but it still has not been mailed, although the copy is ready to go. GSA is at present subject to a Department of Justice / FBI preservation obligation and is, at this time, not permitted to send you the copy. I am trying to shake this loose for you as I see no reason why the copy cannot be provided, but until GSA receives express permission, it will not be mailed. As soon as GSA receives the go ahead, it will be expressed to you. Again, I apologize.

Hi, Seth. The flash drives opened successfully; thanks for helping with that.

It looks like we're still missing a handful of names (spanning parts of the Js and Ks). I've attached an updated spreadsheet listing all the files we've received and identifying the gap; the missing segment is at line 504.

Would you mind asking your IT folks to look at that one more time? Apologies for the iterative requests, but I'm pretty sure the congressional committees or the FBI would notice if we produced nothing from those custodians.

Thanks in advance,

Would you mind asking your IT department to send the missing segments and another copy of the corrupted file? Many thanks.

Mr. Armstrong:

Attached, please find a request for the GSA to provide certain documents and responsive materials within its possession to the FBI. I have discussed this matter extensively with the GSA attorneys cc'ed on this e-mail and they can provide additional details to you. In addition, please do not hesitate to reach out to either myself or SSA (b) (6), (b) (7) who is also cc'ed, with any questions you may have for the FBI.

As always, the FBI greatly appreciates GSA's ongoing assistance.

Kind regards,

Hi Anne Marie,

I'm copying Duane Smith from OGC. My concern is that we have told PTT that legal expenses arising from the period of transition but realized after the transition are not permissible expenses under the appropriation. Perhaps Duane would know of a more proper source for the UPS charges, such as somewhere in the WCF either with OGC or GSAIT. Then we can find someone with UPS account to assist us with getting this out today.

Hi Anne Marie,

I'm copying Duane Smith from OGC. My concern is that we have told PTT that legal expenses arising from the period of transition but realized after the transition are not permissible expenses under the appropriation. Perhaps Duane would know of a more proper source for the UPS charges, such as somewhere in the WCF either with OGC or GSAIT. Then we can find someone with UPS account to assist us with getting this out today.

Brett,

Late yesterday, the FBI contacted me and requested that we transfer [REDACTED] them that were associated with their August 23, 2017 letter. This hardware was given to them and attached is the signed property receipt that includes the associated letter from the FBI. I have highlighted the area in the FBI letter that is addressed with this property transfer.

Also, we plan to transfer additional hardware to the FBI next week.

Please let me know if you have any questions or concerns.

Thanks.

I will speak with Steve about the call on Friday. I have a medical appointment in the morning, but I should be able to make a 2pm call (I assume that this is a non-secure call and I can take it remotely). Please let me know.

Thanks.

I have a copy the PTT files. Erik dropped them off with me a few minutes ago. (b) (6), (b) (7) from DOJ called me back this morning. He said GSA will soon be receiving a more formalized preservation order from the FBI. While it will not specifically instruct GSA to release or not release copies to the PTT (or anyone else), it will be up to GSA to interpret the request and choose a course of action that is consistent, which means we should be able to release the copies to the PTT. I recommend waiting for the actual document from the FBI though so we can read exactly what it says. (b) (6), (b) (7) said it should be issued this week.

This is to follow-up on our discussion. The Senate Intelligence Committee staffer that reached out to me regarding PTT documents and mentioned that the Committee would be sending GSA some type of request is Brett Freedman. His number is (b) (6). I told him the general support GSA provides to the President-elect and his team, and that GSA may have responsive documents, but it will depend on what specifically they want, so we will see what they actually ask for in writing.

Great; thank you. Three things:

1. I would be inclined to save all the email and Google Drive data to an external hard drive and then have it FedEx'ed to me, if that works on your end. But no need to resolve that today.
2. Is it possible for IT to give us a list of which users' phones and laptops are still available to be reviewed/searched? Basically, which users' phones and/or laptops have been recovered from the user but not erased?
3. What happened to the hard drives and phones that **have** been erased? Are the hard drives or memories still physically available for a forensic review, if necessary?

Sorry for all these questions, but I'd just like to make sure we're taking all the steps possible to preserve data.

I was told it is about 328 GB. It is too large to transmit so we will have to figure out how to download and get it to you, but that can be addressed when needed. We can put it on something and USPS mail it.

Here is the latest e-mail exchange we just spoke about. Kory is a PTT lawyer. He reached out a little while ago regarding a record hold based on a private litigation matter. I do not know any specifics of this second request referenced below. GSA never told him of the DOJ/FBI request to us. We simply informed him of the fact that about 80% of the machines were previously wiped but GSA has all of the records archived now.

We discussed this morning a more formal records hold notice to send to the GSA IT folks. Here is a draft based on our normal litigation holds. I have it addressed to Dave Shive (CIO), Steve Grewal (Deputy CIO), and Erik Simmons (PTST IT Support Team Lead). I assume you will want it from me and not one of you, but we can always change that if you want. Please let me know if you want me to sign and issue it or whether you want something changed. Erik, they may request that you speak on the technical side of things next week with their IT people. I told the gentleman that we do not know what is actually there that may be relevant to their inquiry as GSA does not look at the material, and he understood.

Hope you have a good weekend.

Thanks, Seth.

Any responsibility for us to inform the WH that this request has been made? I ask because their understanding of the situation is that everything gets deleted/destroyed when equipment is turned in and the transition ends.

Thanks for keeping us in the loop. Can we huddle briefly tomorrow about any other impacts?

I spoke with Lenny Loewentritt yesterday and Tim Horne was in his office, and they agreed with me. Also, I e-mailed the General Counsel for the IG so they are aware too of our position.

Seth,

Thanks. As you know, everything has been preserved as of the 2/15/17 notification that we received.

Please let me know if you have any questions or concerns.

Thanks.

The FBI had mentioned that a more formal preservation letter would be coming this week, so here it is. This should not change anything for GSA, as we are already preserving the documents and not permitting anyone to access the source documents or systems. Erik-

Per our conversation this morning, attached is the LHM which was sent to your OGC for 9 individuals. Please give me a call this afternoon to discuss when you think the items and the digital records will be available. If you need me to specify the devices (based of the list you provided) I can certain do that.

Mr. Armstrong:

Attached, please find a request for the GSA to provide certain documents and responsive materials within its possession to the FBI. I have discussed this matter extensively with the GSA attorneys cc'ed on this e-mail and they can provide additional details to you. In addition, please do not hesitate to reach out to either myself or SSA (b) [REDACTED] who is also cc'ed, with any questions you may have for the FBI.

Good morning-

I hope you had a great day off. I forwarded this message to OGC – thank you for having Duane send it. OGC was more specific with me and wonder if you could perhaps write a letter or email which provides details of the contract (e.g., a number) in addition to the POC already provided by Eric Simmons. Also, if they could give us authorization for requesting that the third party contractor also be compliant with the FBI request, that may be important to [REDACTED] That’s just speculation on our part but we want this to go smoothly. I have meetings most of the morning. If you have questions, let me know and I can put you in touch with [REDACTED]

Hi Lenny-

I spoke with Seth who advised of the following:

There are 3 things they want, not all of which we can fully provide.

1. Names of Individuals with GSA Provided "Communication Services":

GSA can provide a list of names of those issued GSA equipment (e.g., laptops, cell phones). GSA can also provide names of anyone that received a ptt.gov e-mail address, if for some reason there is a difference from the equipment list. I do not think there are these non-equipment people, but if there are, GSA can figure that out and provide it. GSA IT has the lists. OGC already has a copy of the equipment list and Lenny has it. If OGC needs to speak with someone in GSA IT, Erik Simmons is the best person.

2. Records of All Individuals Designated as Part of PTT as Filed with GSA:

This is where GSA may not have all the information. If someone did work for the PTT but did not receive Government Furnished Equipment, was not paid from the appropriation, or did not have a ptt.gov e-mail address, GSA may have no record of that person. There is no requirement that every member of the PTT be identified to GSA, so GSA should caveat its response.

3. (b) (7)(A) Related Records:

GSA has records related to what our agency did with respect to (b) (7)(A) (e.g., equipment furnished). GSA is also in possession of PTT records. GSA will probably need a subpoena to produce those PTT records as they are not GSA records from a Federal Records Act or FOIA standpoint, and we will need to coordinate with DOJ/FBI. We are holding the records though so they can be produced once those issues are resolved.

(b) (5)

Seth will be back in tomorrow morning. We may want to table this until his return.

Late yesterday, the FBI contacted me and requested that we transfer [REDACTED] them that were associated with their August 23, 2017 letter. This hardware was given to them and attached is the signed property receipt that includes the associated letter from the FBI. I have highlighted the area in the FBI letter that is addressed with this property transfer.

Also, we plan to transfer additional hardware to the FBI next week.

Please let me know if you have any questions or concerns.

Thanks.

Looks like the attorneys were having further discussion with the FBI. They sent this letter just now. You were not an addressee.

Lenny has called a meeting this afternoon and invited us. I will dial in.

LMK if you need anything or want to discuss.

Looks like the attorneys were having further discussion with the FBI. They sent this letter just now. You were not an addressee.

Lenny has called a meeting this afternoon and invited us. I will dial in.

LMK if you need anything or want to discuss.

Mr. Armstrong:

Attached, please find a request for the GSA to provide certain documents and responsive materials within its possession to the FBI. I have discussed this matter extensively with the GSA attorneys cc'ed on this e-mail and they can provide additional details to you. In addition, please do not hesitate to reach out to either myself or SSA (b) (6), (b) (7) (C), who is also cc'ed, with any questions you may have for the FBI.

As always, the FBI greatly appreciates GSA's ongoing assistance.

Kind regards,

Good Morning (b) (6) ,
Thank you for reaching out to me. I spoke to Mr. Armstrong (GSA) on Friday evening and he provided me a copy of the FBI Request for Information (RFI).

I have provided a copy of the RFI and the GSA response to the Defense Information Systems Agency (DISA) General Counsel, (b) (6) (CC'd here) to seek his advice pertaining to your request. I expect that I shall hear from him shortly.

To ensure our timely response, I have also provided direction to my team to begin gathering the requested information.

(b) (6) (CC'd here) will be my POC for this request as I am departing today for Germany and won't be back until Saturday 10 June 17. I will attempt to stay in communications but at this point I do not know how well my mobile devices will work in Europe.

I look forward to working with you in resolution of this matter.

Thanks,

RFI in the subject is short for Request For Information.
Suspense is the Not Later Than date you need them to respond by.
Requirement most likely is the detailed ask of the classified information you need. Similar to the ask for the unclass info

Lenny –

I apologize for the delay. As I just explained to Brett, I was able to coordinate with both the [REDACTED] and the Special Counsel. We ask that you continue to preserve the stored communications, records, and electronic media as previously requested in a manner that maintains the integrity of both the content and the metadata of the information. We have no objection to you indicating to others who request the materials that you are under preservation obligations from the Department of Justice/FBI. As I discussed with Brett, we hope to set up a call next week to discuss production of the materials being preserved.

Please let me know if you have any questions.

Thanks,
Sally

Brett -
Should we schedule the call for 8:30? I have a meeting at 9 that I can try to push back a bit, if necessary.
But I'd like to be sure to connect on this tomorrow morning.

Thanks,

Good morning. Below is another e-mail from Kory. I will need to give him some answer today so please ask the FBI when you speak with them. He knows GSA has everything backed up, and he is just asking for copies; GSA will not release the actual machines or grant access to the actual system so there is no way they or anyone else can tamper with evidence. In addition, these are actually their records so I am having a hard time seeing an argument to withhold copies from them.

Hello, Seth. A follow up on the first point below: I'll have a colleague in Washington on Tuesday and Wednesday and, in order to facilitate our review and production of emails and documents to third parties, I'd like for my colleague to be able to pick up and transport back to Arizona a hard drive with all the email and Google drive data on it. Would it be possible for IT to have that ready by Tuesday or Wednesday morning? (I left you a VM about this yesterday, but wanted to follow up by email in case you're not checking VMs over the weekend.) Thanks again for your assistance. -Kory

Great; thank you. Three things:

1. I would be inclined to save all the email and Google Drive data to an external hard drive and then have it FedEx'ed to me, if that works on your end. But no need to resolve that today.
2. Is it possible for IT to give us a list of which users' phones and laptops are still available to be reviewed/searched? Basically, which users' phones and/or laptops have been recovered from the user but not erased?
3. What happened to the hard drives and phones that **have** been erased? Are the hard drives or memories still physically available for a forensic review, if necessary?

Sorry for all these questions, but I'd just like to make sure we're taking all the steps possible to preserve data.

I was told it is about 328 GB. It is too large to transmit so we will have to figure out how to download and get it to you, but that can be addressed when needed. We can put it on something and USPS mail it.

Here is the latest e-mail exchange we just spoke about. Kory is a PTT lawyer. He reached out a little while ago regarding a record hold based on a private litigation matter. I do not know any specifics of this second request referenced below. GSA never told him of the DOJ/FBI request to us. We simply informed him of the fact that about 80% of the machines were previously wiped but GSA has all of the records archived now.

Lenny,

I am writing to follow up on a conversation last week between one of your attorneys, Seth Greenfeld, and Pete Strzok of the FBI's Counterintelligence Division. As Pete indicated, the FBI requests that the GSA preserve all stored communications, records, and electronic media associated with (b) (6), (b) (7)(A). It is our understanding that the GSA may have a (b) (7)(A) used by or associated with (b) (7)(A), and we ask that you preserve these devices and this information until further notice. We will follow up through your office with any specific requests for production as needed.

In addition, with respect to the other materials that we understand remain in the GSA's possession, such as devices and information associated with other members of the presidential transition team, the FBI requests that the GSA confer with the Senate Select Committee on Intelligence (SSCI) and the House Permanent Select Committee on Intelligence (HPSCI) before disposing of those materials.

Thank you for bringing this to our attention and working with us to preserve this material. Please call me if you have any questions.

Hi Lenny-

I spoke with Seth who advised of the following:

There are 3 things they want, not all of which we can fully provide.

1. Names of Individuals with GSA Provided "Communication Services":

GSA can provide a list of names of those issued GSA equipment (e.g., laptops, cell phones). GSA can also provide names of anyone that received a ptt.gov e-mail address, if for some reason there is a difference from the equipment list. I do not think there are these non-equipment people, but if there are, GSA can figure that out and provide it. GSA IT has the lists. OGC already has a copy of the equipment list and Lenny has it. If OGC needs to speak with someone in GSA IT, Erik Simmons is the best person.

2. Records of All Individuals Designated as Part of PTT as Filed with GSA:

This is where GSA may not have all the information. If someone did work for the PTT but did not receive Government Furnished Equipment, was not paid from the appropriation, or did not have a ptt.gov e-mail address, GSA may have no record of that person. There is no requirement that every member of the PTT be identified to GSA, so GSA should caveat its response.

3. (b) (6) Related Records:

GSA has records related to what our agency did with respect to (b) (6) (e.g., equipment furnished). GSA is also in possession of PTT records. GSA will probably need a subpoena to produce those PTT records as they are not GSA records from a Federal Records Act or FOIA standpoint, and we will need to coordinate with DOJ/FBI. We are holding the records though so they can be produced once those issues are resolved.

Thanks again for making time for the call earlier today. As discussed, the attorneys copied on this message represent Trump for America, Inc., the nonprofit entity serving as the corporate form for the 2016 presidential transition team. For your records, I've attached the following:

1. Articles of Incorporation for the legal entity, naming the initial TFA directors
2. Resolution changing the entity's legal name to "Trump for America, Inc."
3. Letter designating the initial TFA directors as the GSA's points of contact for the transition team
4. Resolution replacing the initial TFA directors with interim TFA directors
5. Letter designating the interim TFA directors as the GSA's points of contact for the transition team
6. Resolution replacing the interim TFA directors with the current TFA directors (i.e., Ken Nahigian and Charles Gantt)
7. Letter designating the current TFA directors as the GSA's points of contact for the transition team

b6

These documents establish that the current TFA directors (Ken Nahigian and Charles Gantt) are responsible for the 2016 presidential transition team. All of this is, of course, consistent with the GSA's course of conduct in working alongside and making reimbursement payments to TFA as the corporate form of the presidential transition team.

Please don't hesitate to call or write with any questions.

Hi Lenny-

I spoke with Seth who advised of the following:

There are 3 things they want, not all of which we can fully provide.

1. Names of Individuals with GSA Provided "Communication Services":

GSA can provide a list of names of those issued GSA equipment (e.g., laptops, cell phones). GSA can also provide names of anyone that received a ptt.gov e-mail address, if for some reason there is a difference from the equipment list. I do not think there are these non-equipment people, but if there are, GSA can figure that out and provide it. GSA IT has the lists. OGC already has a copy of the equipment list and Lenny has it. If OGC needs to speak with someone in GSA IT, Erik Simmons is the best person.

2. Records of All Individuals Designated as Part of PTT as Filed with GSA:

This is where GSA may not have all the information. If someone did work for the PTT but did not receive Government Furnished Equipment, was not paid from the appropriation, or did not have a ptt.gov e-mail address, GSA may have no record of that person. There is no requirement that every member of the PTT be identified to GSA, so GSA should caveat its response.

3. (b) (6) Related Records:

GSA has records related to what our agency did with respect to (b) (6) (e.g., equipment furnished). GSA is also in possession of PTT records. GSA will probably need a subpoena to produce those PTT records as they are not GSA records from a Federal Records Act or FOIA standpoint, and we will need to coordinate with DOJ/FBI. We are holding the records though so they can produced once those issues are resolved.

(b) (5)

Seth will be back in tomorrow morning. We may want to table this until his return.

Brett,

Late yesterday, the FBI contacted me and requested that we transfer [REDACTED] to them that were associated with their August 23, 2017 letter. This hardware was given to them and attached is the signed property receipt that includes the associated letter from the FBI. I have highlighted the area in the FBI letter that is addressed with this property transfer.

Also, we plan to transfer additional hardware to the FBI next week.

Please let me know if you have any questions or concerns.

Thanks.

Erik

This was in response to the letter sent to DISA, so there is nothing for GSA to do at this time. We answered the FBI's previous questions to GSA.

Relatedly, we spoke with the Senate Intelligence Committee yesterday and they (a) made clear that they would like us to hasten this process and (b) stated that they will agree to the GSA providing a copy of the PTT documents to us (and they invited you to contact them to confirm this).

Happy to discuss at your convenience.

Richard and Seth:

Thanks again for making time for the call earlier today. As discussed, the attorneys copied on this message represent Trump for America, Inc., the nonprofit entity serving as the corporate form for the 2016 presidential transition team. For your records, I've attached the following:

1. Articles of Incorporation for the legal entity, naming the initial TFA directors
2. Resolution changing the entity's legal name to "Trump for America, Inc."
3. Letter designating the initial TFA directors as the GSA's points of contact for the transition team
4. Resolution replacing the initial TFA directors with interim TFA directors
5. Letter designating the interim TFA directors as the GSA's points of contact for the transition team
6. Resolution replacing the interim TFA directors with the current TFA directors (i.e., Ken Nahigian and Charles Gantt)
7. Letter designating the current TFA directors as the GSA's points of contact for the transition team

These documents establish that the current TFA directors (Ken Nahigian and Charles Gantt) are responsible for the 2016 presidential transition team. All of this is, of course, consistent with the GSA's course of conduct in working alongside and making reimbursement payments to TFA as the corporate form of the presidential transition team.

Mr. Loewentritt -

Thank you for giving us a heads up about the production request you received from SSCI a few days ago. You had indicated that you'd be able to forward the actual request so that I could share that with the Special Counsel. Unfortunately, I never received the document. Are you able to forward that? It would be helpful for us to review the actual written request.

Thanks so much,

Good Morning (b) (6)
Thank you for reaching out to me. I spoke to Mr. Armstrong (GSA) on Friday evening and he provided me a copy of the FBI Request for Information (RFI).

I have provided a copy of the RFI and the GSA response to the Defense Information Systems Agency (DISA) General Counsel, (b) (6) (CC'd here) to seek his advice pertaining to your request. I expect that I shall hear from him shortly.

To ensure our timely response, I have also provided direction to my team to begin gathering the requested information.

(b) (6) (CC'd here) will be my POC for this request as I am departing today for (b) (6) and

not know how well my mobile devices will work in (b) (6) .

I look forward to working with you in resolution of this matter.

Thanks,

Hello, Seth. A follow up on the first point below: I'll have a colleague in Washington on Tuesday and Wednesday and, in order to facilitate our review and production of emails and documents to third parties, I'd like for my colleague to be able to pick up and transport back to Arizona a hard drive with all the email and Google drive data on it. Would it be possible for IT to have that ready by Tuesday or Wednesday morning? (I left you a VM about this yesterday, but wanted to follow up by email in case you're not checking VMs over the weekend.) Thanks again for your assistance. -Kory

Great; thank you. Three things:

1. I would be inclined to save all the email and Google Drive data to an external hard drive and then have it FedEx'ed to me, if that works on your end. But no need to resolve that today.
2. Is it possible for IT to give us a list of which users' phones and laptops are still available to be reviewed/searched? Basically, which users' phones and/or laptops have been recovered from the user but not erased?

memories still physically available for a forensic review, if necessary?

Sorry for all these questions, but I'd just like to make sure we're taking all the steps possible to preserve data.

The two letters we have are classified (One Secret and one TS/SCI) and we will need to discuss them in a TS/SCI environment. We have TS/SCI Voice, Video and Data capability and can do a VTC or conference call from our HQ SCIF preferably early next week.

I have copied Dustin Williams, Director of Operations here at GSA. He oversees our SCIFs and Comms systems. Please let him/us know who your Comms POC is so his team can coordinate the connection and then block time for the call.

I have also added our Senior GC and CIO POCs.

Lenny,

I am writing to follow up on a conversation last week between one of your attorneys, Seth Greenfeld, and Pete Strzok of the FBI's Counterintelligence Division. As Pete indicated, the FBI requests that the GSA preserve all stored communications, records, and electronic media associated with (b) (7) (C). It is our understanding that the GSA may have (b) (7) (C) used by or associated with (b) (7)(A), and we ask that you preserve these devices and this information until further notice. We will follow up through your office with any specific requests for production as needed.

In addition, with respect to the other materials that we understand remain in the GSA's possession, such as devices and information associated with other members of the presidential transition team, the FBI requests that the GSA confer with the Senate Select Committee on Intelligence (SSCI) and the House Permanent Select Committee on Intelligence (HPSCI) before disposing of those materials.

Thank you for bringing this to our attention and working with us to preserve this material. Please call me if you have any questions.

Also, in the note from the FBI, the General Counsel is requesting that we confer with the Senate and House Committees overseeing Intelligence matters prior to disposing of any other materials involving members of the Presidential Transition Team.

I think that we should all meet to discuss this email request.

Please let me know if we can meet.

Lenny,

I am writing to follow up on a conversation last week between one of your attorneys, Seth Greenfeld, and Pete Strzok of the FBI's Counterintelligence Division. As Pete indicated, the FBI requests that the GSA preserve all stored communications, records, and electronic media associated with (b) (7) [REDACTED]. It is our understanding that the GSA may have [REDACTED] used by or associated with (b) (7)(A) [REDACTED], and we ask that you preserve these devices and this information until further notice. We will follow up through your office with any specific requests for production as needed.

Erik-

We have an additional [REDACTED] individuals we are currently interested in. Attached is a new letter requesting the information. If possible, can you at least have [REDACTED] tomorrow when I pick up the other information? You indicated you will be out until next Tuesday so we want to have it available when they swear out a warrant before then. If you can get the [REDACTED] too – that would be great but I want to manage expectations so just let me know what is or is not possible.

I am also working on [REDACTED] As we are moving this week I may not get them until next week. Thanks for your patience! Please call with any questions on the attached.

Yesterday afternoon, I transferred (b) (7)(E), (b) (7)(A) completely fulfilled the requests that the FBI detailed in their August 23, 2017, and August 30, 2017, correspondence to GSA. Here is a list of the information that

(b) (7)(E), (b) (7)(A)
(b) (7)(A), (b) (7)(-),

Attached is the signed property receipt that includes the associated letters from the FBI. I have highlighted the area in the FBI letters that are associated with this property transfer.
Please Note: For any items that are not highlighted in the FBI request, GSA IT either has already turned over these items or does not have access to these items.

Please let me know if you have any questions or concerns.

Thanks.

Erik

We have an additional [REDACTED] individuals we are currently interested in. Attached is a new letter requesting the information. If possible, can you at least have [REDACTED] tomorrow when I pick up the other information? You indicated you will be out until next Tuesday so we want to have it available when they swear out a warrant before then. If you can get the [REDACTED] [REDACTED] – that would be great but I want to manage expectations so just let me know what is or is not possible.

I am also working on [REDACTED]. As we are moving this week I may not get them until next week. Thanks for your patience! Please call with any questions on the attached.

Late yesterday, the FBI contacted me and requested that we transfer [REDACTED] them that were associated with their August 23, 2017 letter. This hardware was given to them and attached is the signed property receipt that includes the associated letter from the FBI. I have highlighted the area in the FBI letter that is addressed with this property transfer.

Also, we plan to transfer additional hardware to the FBI next week.

Please let me know if you have any questions or concerns.

Thanks.

Erik

Lesley,

I just wanted to give you a sense of the types of information that is being requested by the FBI. I have redacted the names for obvious reasons.

This information is only to be shared on a need to know bases. Within GSA IT, Steve G, Anne Marie Davis, and Sherry Payne are the only individuals aware of this request and have access to the names in the document.

Please let me know if you have any questions or concerns.

Thanks.

Mr. Armstrong:

Attached, please find a request for the GSA to provide certain documents and responsive materials within its possession to the FBI. I have discussed this matter extensively with the GSA attorneys cc'ed on this e-mail and they can provide additional details to you. In addition, please do not hesitate to reach out to either myself or SSA (b) (6), (b) (7)(C) who is also cc'ed, with any questions you may have for the FBI.

As always, the FBI greatly appreciates GSA's ongoing assistance.

Erik-

We have an additional [REDACTED] individuals we are currently interested in. Attached is a new letter requesting the information. If possible, can you at least have [REDACTED] tomorrow when I pick up the other information? You indicated you will be out until next Tuesday so we want to have it available when they swear out a warrant before then. If you can get the [REDACTED] too – that would be great but I want to manage expectations so just let me know what is or is not possible.

I am also working on [REDACTED]. As we are moving this week I may not get them until next week. Thanks for your patience! Please call with any questions on the attached.

Good Morning (b) (6)

Thank you for reaching out to me. I spoke to Mr. Armstrong (GSA) on Friday evening and he provided me a copy of the FBI Request for Information (RFI).

I have provided a copy of the RFI and the GSA response to the Defense Information Systems Agency (DISA) (b) (6), (b) (7)(C) (CC'd here) to seek his advice pertaining to your request. I expect that I shall hear from him shortly.

b6

To ensure our timely response, I have also provided direction to my team to begin gathering the requested information.

(b) (6), (b) (7) (CC'd here) will be my POC for this request as I am departing today for Germany and won't be back until Saturday 10 June 17. I will attempt to stay in communications but at this point I do not know how well my mobile devices will work in Europe.

I look forward to working with you in resolution of this matter.

Thanks,
Jim

(b) (6), (b) (7)(C) this is in response to the letter of June 2, 2017 submitted to GSA from (b) (6), (b) (7)(C) Special Agent In Charge regarding GSA's assistance in the FBI's investigative efforts.

As we discussed in our phone conversation, GSA has the necessary documents and information that is being requested. We are in the process of accumulating the requested documents and information and hope to have the full response to you in the next week.

I am attaching my response to (b) (6), (b) (7)(C) letter. I would appreciate it if you could forward the letter and this email to him since I do not have his email address. The letter also contains the contact information that was requested during our phone conversation.

Please let me know if I can be of any further assistance any time.

My phone number is 202-501-2200.

Seth -Thank you for getting back to us. As I mentioned, I'm in our Chicago Field Office this week. So I've asked (b) (6), (b) (7)(C), another attorney in our office, and (b) (6), (b) (7) to reach out to discuss. I believe they're going g to try to set up a call today.

Thanks,

Good afternoon. I am available any day in the next week and a half to speak, but Erik will out of the office a fair amount over the next several weeks. If you want to meet with both of us, next Friday (May 26) may be the soonest. Next Thursday (May 25) may work too as I am available 8:30-10:00 or after 2:00 and Erik said he is available that day. If the end of next week is too late, please let me know.

Lenny,

I am writing to follow up on a conversation last week between one of your attorneys, Seth Greenfeld, and Pete Strzok of the FBI's Counterintelligence Division. As Pete indicated, the FBI requests that the GSA preserve all stored communications, records, and electronic media associated with (b) (7)(A). It is our understanding that the GSA may have a cellular telephone, laptop, call logs, and email communications used by or associated with (b) (7)(A), and we ask that you preserve these devices and this information until further notice. We will follow up through your office with any specific requests for production as needed.

b7A

In addition, with respect to the other materials that we understand remain in the GSA's possession, such as devices and information associated with other members of the presidential transition team, the FBI requests that the GSA confer with the Senate Select Committee on Intelligence (SSCI) and the House Permanent Select Committee on Intelligence (HPSCI) before disposing of those materials.

Thank you for bringing this to our attention and working with us to preserve this material. Please call me if you have any questions.

I just left you message.

I saw this yesterday. There are 3 things they want, not all of which we can fully provide.

1. Names of Individuals with GSA Provided "Communication Services":

GSA can provide a list of names of those issued GSA equipment (e.g., laptops, cell phones). GSA can also provide names of anyone that received a ptt.gov e-mail address, if for some reason there is a difference from the equipment list. I do not think there are these non-equipment people, but if there are, GSA can figure that out and provide it. GSA IT has the lists. OGC already has a copy of the equipment list and Lenny has it. If OGC needs to speak with someone in GSA IT, Erik Simmons is the best person.

2. Records of All Individuals Designated as Part of PTT as Filed with GSA:

This is where GSA may not have all the information. If someone did work for the PTT but did not receive Government Furnished Equipment, was not paid from the appropriation, or did not have a ptt.gov e-mail address, GSA may have no record of that person. There is no requirement that every member of the PTT be identified to GSA, so GSA should caveat its response.

3. (b) (7)(A) :

GSA has records related to what our agency did with respect to (b) (7)(A) (e.g., equipment furnished). GSA is also in possession of PTT records. GSA will probably need a subpoena to produce those PTT records as they are not GSA records from a Federal Records Act or FOIA standpoint, and we will need to coordinate with DOJ/FBI. We are holding the records though so they can be produced once those issues are resolved.

(b) (5)

[Redacted]

I will be back on Thursday and I am sure this will still be around.

Seth

Just saw this. I have a call at 10 but Lenny and Duane may be free. Do you have a preferred time for the call? I think Lenny has an appointment at 11:15 but is available otherwise.

Good evening, everyone.

Today, (b) (6) and I have a conversation with (b) (6) DISA OGC (and who is cc'ed), concerning the computer equipment held by GSA that DISA provided service for. (b) (6) indicated that DISA concurs with following same procedures for obtaining that equipment as we have established for FBI requests to GSA; namely. it will be provided to the FBI via consent, the FBI will maintain custodial possession only; and then the FBI will seek legal process prior to gaining access to any devices held within custodial possession.

To that end, please know that the FBI will be submitted a request for some of this equipment in short order. If anyone has any concerns or questions, please do not hesitate to raise them in this e-mail or arrange a time for a telephone call.

Thank you,

Duane, I spoke to (b) (6), (b) (7) (C) at the FBI.

Please send (b) (6) an acknowledgement that we received and are in compliance with the formal FBI hold request.

Also, have we also sent any notice to Google (I think that we did) also holding all applicable documents in its possession? We need to let (b) (6) know as well. I will be out tomorrow (Tuesday) and will be back on Wednesday.
